## MALBEC

*Brought to Mendoza by Michele Aimé Pouget from Bordeaux in 1853, Malbec has now become Argentina's jewel.*

*Towards the end of the 19th Century, disease destroyed much of France's vineyards, resulting in Argentina becoming the only country to have original Malbec vines of French heritage.*

*In recent years Malbec has become the fastest growing grape variety and Argentina has the largest Malbec acreage of any country in the world.*

*Its beauty lies in its ease of drinking, soft, voluptuous tannins, beautiful perfume and its affinity with beef... and chocolate.*
